## SHSAT & TACHS : The NEW Tests For 8th Graders

Academic Advantage has been preparing students for both the SHSAT & TACHS for over 15 years. Since the format and content for both exams are different, we run separate programs. Focus is on content review as well as test taking strategies. Students who register for multiple fall classes will receive discounts.

SHSAT & TACHS classes meet 8 times, which includes a Full Length Practice Test under test taking conditions. The TACHS REVIEW is an excellent refresher course/short program for students looking for a quick review of format & strategies. It can be used as an add on to the Monday or Saturday fall class for extra help or taken in place of an 8 session course.

We are extremely proud of our tremendous success rate in preparing students for both of these exams. Update forms from past students are available at our center for parents to review. Our students have received thousands of dollars in scholarships to date.
